Aircel announces plans for iPhone 5

PNS ■ JAMSHEDPUR

Aircel, one of India's leading telecom players, on Monday celebrated the launch of the much awaited Apple iPhone 5.

Experience being the crux of what Aircel strives to offer its customers; the company on Monday announced the new range of exciting usage plans giving a benefit of more than Rs 20,000 annually with every iPhone 5.

Aircel's postpaid subscribers will enjoy exclusive usage plans which include freedom from monthly rentals and additional benefits of free in-built usage (1GB data per month) bundled with voice (500 mins/month) and SMS (500/month). In other words, Aircel customers get all the above mentioned benefits for free. Post 12 months, the customer has to pay only Rs 399/month to continue getting these benefits.

Aircel will also launch a series of value based prepaid plans starting at just Rs 399, with bundled data and SMS pack, specifically designed to suit the needs of its prepaid customers.
